**Press release**  
**ECHOES. Skin Contact**  
30.1. – 8.2.26

Our annual live exhibition **ECHOES** continues to explore the interplay between the human body and mediated reality. In 2026, ECHOES returns from **30.1. to 8.2.26** with two multi-year research projects and a rich programme of performances, concerts, talks, and live video installations. Alongside the exhibition “For Children. Art Stories since 1968”, the fourth edition “**ECHOES. Skin Contact**” turns to coming-of-age in a world shaped by digital technologies and asks how we connect with one another, and with humans and non-humans alike.

Across two weekends, artists invite audiences into spheres of deep reflection with AI infants, amphibian oracles, spectral avatars, and voices of remembered kin, evoking the heightened emotions of coming-of-age: desire and doubt, yearning and uncertainty, solitude and self-discovery. The first week closes with a truly intimate moment hosted by artist and chef Angel Dimayuga, and the second week focuses on our relationship with nature. Artist Damsel Elysium will present a performance centring on the four elements, and musician Lechuga Zafiro invites visitors into his wide and complex rhythmic-timbral universe of field recordings from across South America.

Artists include 7038674567, Gabriel Abrantes, Ed Atkins, Kara-Lis Coverdale, Angel Dimayuga & Guests, Damsel Elysium, Fine, Invernomuto, Adam Linder, Malibu, OMSK Social Club, PILLBERT, STILL, Lechuga Zafiro.

Curated by Sarah Miles and Sarah Johanna Theurer.

During ECHOES, the following installations are accessible free of charge during opening hours:

**Gabriel Abrantes. Bardo Loops (2024) (German Premiere)**

The multi-part video installation shows non-human beings grappling with very human situations.

**Invernomuto. Triton (2024–2026)**

The cross-media project combines sculpture, sound, and storytelling, developing through collaborations, performances, and a listening platform. Conceived as a sentient and portable device, *Triton* transforms data from a living ecosystem into sound and light, creating a constantly evolving composition.

*Triton* is a new commission by Haus der Kunst München and is funded by the Directorate-General for Contemporary Creativity of the Italian Ministry of Culture as part of the Italian Council Programme (2024) and supported by the music label PAN.

*Triton* by Invernomuto and *OUR BR00D* by OMSK Social Club are two commissions of long-term research projects that Haus der Kunst presents within ECHOES:

**OMSK Social Club. OUR BR00D (2025–2027)**

An artistic experiment that explores forms of radical care and collective intelligence through study days, prototyping sessions, and role-playing games throughout 2026, culminating in ECHOES 2027.

The project is developed in cooperation with the Artificial Intelligence in Culture and Arts (AICA) Digitalization College at MUC.DAI, Munich University of Applied Sciences, and the Wavelab at the University of Music and Performing Arts Munich and granted by the Art & AI programme of the Kulturstiftung des Bundes.

**Angel Dimayuga. Living Room Concept. Performance (German Premiere)**

The first weekend of ECHOES concludes with a special event: artist and chef Angel Dimayuga invites us to a communal dinner among friends. The event takes place in cooperation with Schumann's Bar and Vino Honesto.
